Notice of Change in Blood Glucose Meter Brands - July 1, 2013

Dear <Member Name>,

Checking your blood sugar is important to staying healthy! To help you stay healthy, we’re letting you know about a change to our preferred blood glucose strips.

Starting July 1, 2013, Health Net’s preferred products covered at your lowest brand copay will be:

- Abbott Diabetes Care products (Freestyle and Precision Xtra meters) and
- LifeScan, Inc., a Johnson and Johnson Company, (OneTouch Meters)

Our records show you are using a Roche Diagnostic meter with Accu-Chek test strips. After July 1, 2013, Roche products will cost you more. In a few weeks, we will send you information on how to get a free meter that uses lower cost test strips.

We decided to make LifeScan OneTouch meters and strips preferred for the following reasons:

- LifeScan and its OneTouch brand is the marketplace leader.
- OneTouch products are preferred by many doctors
- LifeScan’s Ultra Blue test strips are very accurate

Both Abbott and LifeScan brands use the latest technology and make blood glucose testing simple and easy.

Look for our next mailing to find out how to get your choice of seven different new blood glucose meters at no cost to you. All of these meters use our preferred test strips covered at your lowest brand copay.

Sincerely,

Health Net Pharmaceutical Services
