INDEPENDENT AUDITORS' REPORT

Board of Trustees Ventura County Community College District Camarillo, California

We have audited, in accordance with auditing standards generally accepted in the United States of America, the basic financial statements of the Ventura County Community College District for the year ended June 30, 2005, and have issued our report thereon dated September 8, 2005. We have also audited the accompanying financial statements of the governmental fund types, fiduciary fund types, and proprietary fund types of the Ventura County Community College District as of and for the year ended June 30, 2005, as listed in the table of contents. These financial statements are the responsibility of the Ventura County Community College District's management. Our responsibility is to express an opinion on these financial statements based upon our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used, and significant estimates made, by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As described in Note 1, the Ventura County Community College District prepares its governmental fund type and fiduciary fund type financial statements on the modified accrual basis, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

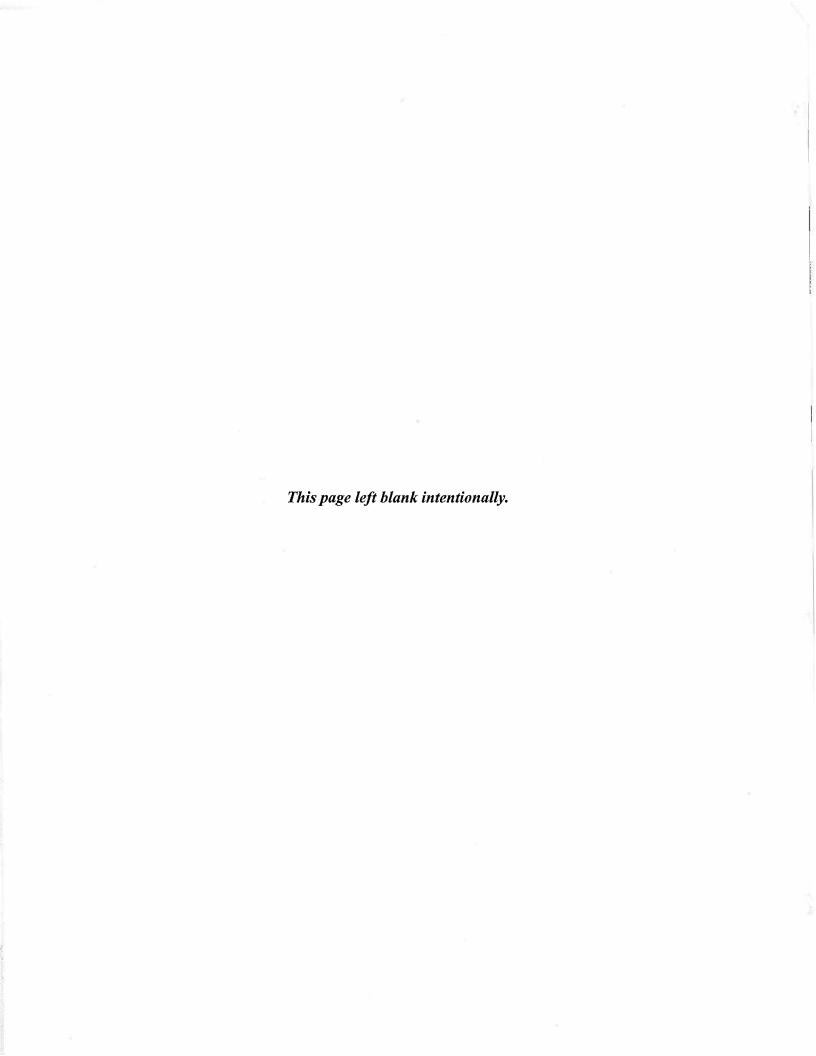

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position - modified accrual basis of the governmental fund types, fiduciary fund types, and the financial position of the proprietary fund types of the Ventura County Community College District as of June 30, 2005, and its respective changes in financial position - modified cash basis - and the changes in financial position and cash flows thereof for the year then ended in conformity with the basis of accounting described in Note 1.

This report is intended solely for the information of the Board of Trustees and management of the Ventura County Community College District and is not intended to be and should not be used by anyone other than these specified parties.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2005

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Ventura County Community College District (the District) was established in 1962 as a political subdivision of the State of California and provides educational services to the residents of Ventura County. The District accounts for its financial transactions in accordance with the policies and procedures of the California State Chancellor's Office Budget and Accounting Manual.

In June 1999, the Governmental Accounting Standards Board (GASB) approved Statement No. 34, "Basic Financial Statements and Management Discussion and Analysis for State and Local Governments," followed by Statement No. 35, "Basic Financial Statements and Management's Discussion and Analysis for Public College and Universities." These statements are scheduled for a phased implementation (based on size of the government) through fiscal years ending in 2004. The District has implemented those changes. We have audited, in accordance with auditing standards generally accepted in the United States of America the basic financial statements of Ventura County Community College District for the year ended June 30, 2005, and have issued our report thereon dated September 8, 2005.

These financial statements have been prepared specifically for the Board of Trustees and management of the Ventura County Community College District to provide an analysis of the financial position and results of operations had the District <u>not</u> implemented GASB Statements No. 34 and 35. Fund financial statements are included in this report to present the operations of the individual funds used by the District.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Governmental fund type and fiduciary fund types are reported using the modified accrual basis of accounting. Their revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current fiscal period. Expenditures are recognized in the accounting period in which the liability is incurred (when goods are received or services rendered), except for unmatured interest on general long-term debt, which is recognized when due.

Proprietary fund types are accounted for using the accrual basis of accounting. Revenues are recognized when earned, and expenses are recognized when the related liabilities are incurred.

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of measurement made, regardless of the measurement focus applied.

The District applies all GASB pronouncements, as well as the Financial Accounting Standards Board (FASB) pronouncements issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2005

Capital Assets

The District's capital expenditures have been accounted for as expenditures within the governmental and fiduciary fund types incurring the cost. These assets have not been capitalized within the individual funds and depreciation expense is not recorded. Capital assets are capitalized within the Proprietary fund types and depreciations expense is recorded within the individual fund incurring the expense. Depreciation on capitalized assets is provided on the straight-line basis over the following estimated useful lives:

Machinery and equipment Improvements

5 - 10 years

5 - 20 years

Budgets and Budgetary Accounting

Annual budgets are adopted on a modified accrual basis for the District's General Funds and Special Revenue Fund. The District's Board of Trustees adopts a tentative operating budget no later than July 1 in accordance with State law. The Board revises the budget during the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption. It is this final revised budget that is presented in these financial statements. The District employs budget control by minor object and by individual appropriation accounts. The Board approves pooled budget categories for operational expenditures (supplies, operating expenses, and capital outlay). Actual expenditures are charged to the specific expenditure account number. Expenditures cannot legally exceed appropriations by major object account. A public hearing must be conducted to receive comments prior to adoption. The District's Board satisfied these requirements.

Inventory

Inventory in the District's bookstore and cafeteria funds consists of books, instructional materials, sundry items, and food held for resale to students and staff of the Colleges. Inventory is valued at cost. Inventory remaining on hand at year-end is valued and an adjustment to the supplies expense account is made.

Prepaid Expenditures/Expenses

Prepaid expenditures or expenses represent payments made to vendors for services that will benefit periods beyond June 30.

Compensated Absences

Accumulated unpaid employee vacation benefits are recognized as liabilities of the District. The amount of the liability expected to be paid from current resources is recognized at year-end in the governmental fund that will pay the benefit.

The District also participates in "load banking" with eligible academic employees whereby the employee may teach extra courses in one period in exchange for time off in another period. The District recognizes this liability in the same manner as vacation benefits.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2005

Sick leave is accumulated without limit for each employee at the rate of one day for each month worked. Leave with pay is provided when employees are absent for health reasons, however, the employees do not gain a vested right to accumulated sick leave. Employees, therefore, are never paid for any sick leave balance at termination of employment or any other time. Therefore, the value of accumulated sick leave is not recognized as a liability in the District's financial statements. However, credit for unused sick leave is applicable to all classified school members who retire after January 1, 1999. At retirement, each member will receive .004 year of service credit for each day of unused sick leave.

Property Tax

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1. Unsecured property taxes are payable in one installment on or before August 31. The County of Ventura bills and collects the taxes for the District. The District recognizes tax revenues when received.

Deferred Revenue

Deferred revenue arises when a potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met or when the District has a legal claim to the resources, the liability for deferred revenue is removed from the combined balance sheet and revenue is recognized.

Cash and Cash Equivalents

The District has defined cash and cash equivalents to include cash on hand, demand deposits, and short-term investments with original maturities of one year or less from the date of acquisition. Cash equivalents also include cash held in the county treasury for the purposes of the statement of cash flows.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America and requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

Financial Presentation

These financial statements have been prepared specifically for the Board of Trustees and management of the Ventura County Community College District to provide an analysis of the financial position and results of operations of the District's individual funds had the District not implemented GASB Statements No. 34 and No. 35.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2005

Newly Issued Accounting Pronouncements

- GASB Statement No. 40: In March 2003, GASB issued Statement No. 40, Deposit and Investment Risk Disclosures, which amends Statement No. 3, Deposits with Financial Institutions, Investments (including Repurchase Agreements), and Reverse Repurchase Agreements, and addresses additional risks to which governments are exposed. Under Statement No. 40, State and local governments are required to disclose information covering four principal areas:
 - o Investment credit risk disclosures, including credit quality information issued by rating agencies;
 - Interest rate disclosures that include investment maturity information, such as weighted average maturities or specification identification of securities;
 - o Interest rate sensitivity for investments that are highly sensitive to changes in interest rates (ex: inverse floaters, enhanced variable-rate investments, and certain asset-backed securities; and
 - o Foreign exchange exposures that would indicate the foreign investment's denomination.

The GASB Statement No. 40 provisions are effective for financial statements for periods beginning after June 30, 2005, and are included in *NOTE 2 - CASH AND INVESTMENTS*.

- GASB Statement No. 42: In November 2003, GASB issued Statement No. 42, Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries. This statement establishes accounting and financial reporting standards for impairment of capital assets. The provisions of this statement are effective for periods beginning after December 2004 and will be implemented by the District in fiscal year 2005-2006.
- GASB Statement No. 43: In April 2004, GASB issued Statement No. 43, Financial Reporting for Postemployment Benefits Other than Pension Plans. The standards in this statement apply for trust funds included in the financial reports of plan sponsors or employers, as well as for the stand-alone financial reports of OPEB plans or the public employee retirements systems, or other third parties that administer them. The provisions of this statement are effective for periods beginning after December 15, 2005. The District is not a plan sponsor of an OPEB Plan.
- GASB Statement No. 45: In June 2004, GASB issued Statement No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. The pronouncement will require employers providing healthcare benefits to retirees to recognize and account for the costs for providing these benefits on an accrual basis and provide footnote disclosure on the progress toward funding the benefits. The implementation date for this pronouncement will be staggered in three phases based upon the entity's revenues, similar to the implementation for GASB Statements No. 34 and 35. GASB Statement No. 45 will be effective for the Ventura County Community College District on July 1, 2007. The effect of this pronouncement on the financial condition of the District has not been determined. The Board and the District has begun the study and evaluation of the effects of the pronouncement and has begun to set aside funds that will meet the funding requirements. It is anticipated that the District will be in full compliance with this standard by the required implementation date.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2005

- GASB Statement No. 46: In December 2004, GASB issued Statement No. 46, Net Assets Restricted by Enabling Legislation, an amendment of GASB No. 34. This statement clarifies that a legally enforceable enabling legislation restriction is one that a party external to a government can compel a government to honor. Accordingly, it clarifies the determination of restricted net assets within the statement of net assets. This statement is not effective until June 30, 2006.
- GASB Statement No. 47: In June 2005, GASB issued Statement No. 47, Accounting for Termination Benefits. This statement establishes accounting standards for termination benefits. This statement is not effective until June 30, 2006.

NOTE 2 - CASH AND INVESTMENTS

Policies and Practices

The District is authorized under California Government Code to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

Investment in County Treasury - The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (Education Code Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

Authorized Under Debt Agreements

Investments of debt proceeds held by bond trustees are governed by provisions of the debt agreements rather than the general provisions of the California Government Code. These provisions allow for the acquisition of investment agreements with maturities of up to 30 years.

Summary of Deposits and Investments

Deposits and investments as of June 30, 2005, consist of the following:

Cash on hand and in banks	\$ 158,396
Investments	86,648,702
Total Deposits and Investments	\$ 86,807,098

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District manages its exposure to interest rate risk by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2005

portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Specific Identification

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuation is provided by the following schedule that shows the distribution of the District's investment by maturity:

Fair	Maturity
Value	Date
\$ 6,574,896	12/05-06/08
79,794,080	07/01/05
\$ 86,368,976	
	Value \$ 6,574,896 79,794,080

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by the California Government Code, the District's investment policy, or debt agreements, and the actual rating as of the year-end for each investment type.

	Minimum	
Fair	Legal	Rating
Value	Rating	June 30, 2005
\$ 6,574,896	AAA	AAA
79,794,080	N/A	N/A
\$ 86,368,976		
	Value \$ 6,574,896 79,794,080	Value Rating \$ 6,574,896 AAA 79,794,080 N/A

Custodial Credit Risk - Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does have a policy for custodial credit risk. The District shall attempt to limit its investments outside of the County Treasury in any one bank or corporation or instrument to no more than ten percent of total investments at the time of purchase. As of June 30, 2005, \$8,223 of the District's bank balance of \$135,145 was exposed to custodial credit risk.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2005

NOTE 8 - COMMITMENTS AND CONTINGENCIES

Litigation

The District is involved in various litigation. In the opinion of management and legal counsel, the disposition of all litigation pending will not have a material effect on the District's financial statements.

State and Federal Allowances, Awards and Grants

The District has received State and Federal funds for specific purposes that are subject to review and audit by the grantor agencies. Although such audits could generate expenditure disallowances under terms of the grants, in the opinion of management, any required reimbursements will not be material.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2005

Construction Commitments

As of June 30, 2005, the District had the following commitments with respect to the unfinished capital projects:

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2005

NOTE 9 - TAX AND REVENUE ANTICIPATION NOTES

On July 1, 2004, the District issued \$11,600,000 Tax and Revenue Anticipation Notes bearing interest at 3.0 percent, with a yield of 1.59 percent. The notes were issued to supplement cash flows. Interest and principal were due and payable on June 30, 2005. By April 30, 2005, the District had placed 100 percent of principal and interest in an irrevocable trust for the sole purpose of satisfying the notes. The District was not required to make any additional payments on the notes. As the District has in substance defeased the debt, the tax anticipation notes of \$11,600,000 and related accrued interest and cash held in trust are not included in these financial statements.

Changes in the outstanding liabilities for the Tax and Revenue Anticipation Notes are as follows:

		Maturity	Outstanding			Outstanding
Issue Date	Rate	Date	July 1, 2004	Additions	Payments	June 30, 2005
07/01/04	3.0%	06/30/05	\$ 11,600,000	\$ -	\$ 11,600,000	\$ -

NOTE 10 - SUBSEQUENT EVENTS

Tax and Revenue Anticipation Notes

The District issued \$8,105,000 of Tax and Revenue Anticipation Notes dated July 1, 2005. The notes mature on June 30, 2006, and bear interest at 4.0 percent with a yield of 2.62 percent. The notes were sold to supplement cash flow. Repayment requirements are that 50 percent of principal and interest be deposited with the Fiscal Agent on January 31, 2006, and the remaining 50 percent of principal and interest be deposited with the Fiscal Agent on April 30, 2006.
