## District Vision, Mission & Values

#### **District Vision Statement**

The Ventura County Community College District will become the leader in the development of high quality, innovative educational programs and services. Keeping in mind that students come first, we will model best practice in instructional and service delivery, student access, community involvement, and accountability.

#### **District Mission Statement**

Ventura County Community College District provides students, in its diverse community, with access to comprehensive quality educational opportunities that support student learning and student success.

#### **District Values Statement**

- We base our actions on what will best serve students and the community.
- We maintain high standards in our constant pursuit of excellence.
- We recognize and celebrate creativity, innovation, and entrepreneurship.
- We demonstrate integrity and honesty in action and word.
- We communicate openly and respectfully to students, colleagues and members of the public.
- We hire and retain personnel who reflect the diversity of the communities we serve.
- We promote inclusiveness, and openness to differing viewpoints.
- We use data, research and open discussion to drive our plans and decisions.
- We demonstrate responsible stewardship for our human, financial, physical and environmental resources.
- We seek and maintain long-term partnerships with the communities we serve.

## Ventura County Community College District Adopted Board of Trustees/District 2021 – 2027 Strategic Goals

- 1. Instill a culture that values diversity, students, our communities, collaboration, and the success of each employee.
- 2. Increase equitable access and success for all students.
- 3. Support the closing of academic achievement and support services equity gaps across all racial, ethnic, socioeconomic, and gender groups.
- 4. Actively support equitable workforce and economic development in Ventura County through partnerships and relevant programs and pathways leading from education to careers.

VENTURA COUNTY COMMUNITY COLLEGE DISTRICT 2021-2022 ADOPTION BUDGET

TIMELINE AND PROCESS

Ventura County Community College District State Budget Process Timeline

Governor's January Proposal - includes estimates of state revenues

Governor's May Revise - revised estimates of state revenues

Final State Budget - final state revenue

P1- estimates of statewide budget shortfalls in property tax and enrollment fees; deficit factor to growth funding; may allocate special funding 

P2 - revised estimates of statewide budget shortfalls in property tax and enrollment fees; deficit factor to growth funding; may allocate special funding 

Final Recalc - Final calculation of state revenue- includes any final deficit, distribution of unclaimed dollars that are not returned by Budget Act/Law 

### VENTURA COUNTY COMMUNITY COLLEGE DISTRICT TIMELINE AND PROCESS FOR BUDGET DEVELOPMENT – BUDGET YEAR 2022

October	District Council on Administrative Services (DCAS) reviews General Fund Allocation Model and Infrastructure Funding Model to consider the need for modifications.	
November/ December	Vice Chancellor and District Budget Officer estimate revenue and inflationary costs in upcoming and subsequent budget years to identify gaps. Vice Chancellor provides analysis of projected revenues and increases in costs to DCAS for revenue and deliberation of terreted ETEC.	
	deliberation of targeted FTES, expenditure reductions or increases, and consideration of managed use or increase of reserves. Colleges and District Administrative Center receive preliminary allocations for the upcoming fiscal year based on the budget	
	allocation models and begin preliminary budget plans.	
December	Board of Trustees Study Session on District Reserves	
	Board of Trustees reviews District budget process and projections and provides strategic direction in alignment with Board goals.	
January	Vice Chancellor and district/college budget officers review Governor's Initial Budget Proposal and refine budget projections. Provide an update to DCAS.	
February	Board of Trustees reviews the Governor's Initial Budget Proposal and district budget	
· • • • • • • • • •	projections and provides strategic direction in alignment with Board goals.	
	Vice Chancellor and district/college officers draft budget assumptions and submit to DCAS for consideration and recommendation to Board.	
March/April	Board of Trustees approve budget assumptions.	
	Colleges and District Administrative Center receive allocation for tentative budget based on the allocation models and build site-specific tentative budgets. DCAS receives an update.	
Мау	Board of Trustees Special Board Meeting (Tentative Budget review)	
	Vice Chancellor and district/college budget officers compare Governor's May Revise to district budget projections and make adjustments and provide DCAS with an update. DCAS reviews Tentative Budget and recommends to Board.	
June	Board of Trustees approves the Tentative budget.	
July/August	Vice Chancellor and district/college budget officers compare signed State budget to district budget projections and make adjustments. Colleges and District Administrative Center receive final allocations for the upcoming fiscal year based on the allocation models, analyze year-end results, incorporate these results into local planning processes, and build a site-specific adoption budget. DCAS reviews Adoption Budget and recommends through Board.	
September	Board of Trustees approve the Adoption budget.	

## VENTURA COUNTY COMMUNITY COLLEGE DISTRICT 2021-2022 ADOPTION BUDGET

ALLOCATION MODEL

### VENTURA COUNTY COMMUNITY COLLEGE DISTRICT

### DISTRICTWIDE RESOURCE BUDGET ALLOCATION MODEL GENERAL FUND – UNRESTRICTED BUDGET

Fiscal Year 2021-2022

#### I. Introduction

The Districtwide Resource Budget Allocation Model (Allocation Model) represents the methodology for distribution of Unrestricted General Fund revenues to the District's various operating units. The Allocation Model is complex enough to reflect the needs of a multi-college district and the unique characteristics of the colleges, yet simple enough to be readily understood, easily maintained, and transparent. The Model considers how the District is funded by the State and contains factors to help ensure accountability, predictability, and equity. Further, the elements of the Allocation Model are based on both resources and expenditures.

The Allocation Model addresses the distribution of resources, and is not prescriptive in how funds are to be spent at the various locations (colleges and district office). The District acknowledges differences between its colleges and recognizes the need to direct resources based on plans and objectives to meet the needs of each college's diverse populations and constituencies. The colleges have separate and specific budget development processes that are unique to each college and are reflective of the organizational culture and priorities. It is at this level that the budget must be tied to each college's strategic plans and address accreditation requirements.

Annually, the Allocation Model is reviewed by the District Council of Administrative Services (DCAS) and Cabinet. As necessary, modifications and/or revisions to the Allocation Model, when appropriate, are recommended to the Board for consideration as deemed appropriate for the maintenance of the model's equity and integrity.

The California Community Colleges Chancellor's Office implemented the Student Centered Funding Formula (SCFF) beginning with the 2018-19 fiscal year. Shortly after the implementation, the District proceeded with consideration to modify the existing Budget Allocation Model to reflect the components contained in the SCFF. Over the last approximately three years, DCAS has spent substantial time discussing and studying various allocation model scenarios and the resulting impacts to the District and its colleges, while concurrently evaluating the existing model. Further, DCAS members have spent significant time discussing and advocating for equality and equity in the proposed Model. In culmination of comprehensive analysis and discussions, DCAS recommends that the model be updated for the 2021-22 budget to more closely align the District's allocation model with the SCFF. The key components of the proposed model are described below.

#### II. <u>Model</u>

The Districtwide Resource Budget Allocation Model utilizes formulas and variables that have been meaningfully studied, readily defined, easily measured, and consistently reported. The following describes the elements of the Allocation Model:

#### A. Revenue

The Allocation Model is designed for the distribution of all General Fund unrestricted revenue, unless identified to be distributed in a different fashion (such as to fund structural deficits). At this time, only state apportionment, unrestricted lottery, a portion of non-resident tuition, and items related to part-time comp and benefits are included in the Allocation Model. Restoration revenue is not included in the allocation model until the year after it is earned. In years affected by the shift of FTES, revenue will be projected based on operational FTES or state reported FTES subject to the maximum of state funded base. Revenue from shifted FTES will be distributed through the Allocation Model. Restricted revenue sources of funding are allocated by the state directly to a specific college or by a district agreed-upon distribution method.

B. Districtwide Support

Resources are allocated to a set of services and expenditure elements which are recognized as best administered in a centralized fashion.

1. Districtwide Services (DWS)

The Allocation Model provides a pool of resources, referred to as Districtwide Services (DWS), to support expenditures required to meet general districtwide obligations which support the district as a whole and cannot be conveniently or economically assigned to the other operating locations through a cost center. These expenditures include property and liability insurance, legal expenses, governing board expenses, financial and compliance audits, central technology hardware, software and management services, and other activities. These common costs benefit all operating units, but are not the direct result of any individual unit. Components and specific line item budgets will be considered each year by DCAS for inclusion in DWS or movement to another budget location. *There are no proposed changes to this portion of the model.* 

#### 2. Utilities

The district accounts for utilities in a central location, so as to mitigate the significant differences in utilization due to building size, construction, age, and climatic conditions affected by college locations. Expenditures represent the districtwide costs for electricity, water, gas, and land line telephone. The budget for utilities is based on historical and projected rates and usage, and presented to DCAS for review and concurrence. *There are no proposed changes to this portion of the model.* 

3. District Administrative Center (DAC)

The district recognizes that it is fiscally prudent to provide certain services centrally through the operation of a district office (District Administrative Center – DAC). These services primarily represent those functions that can be most effectively and efficiently administered in a centralized fashion. Typical of such functions are the Chancellor's office, human resources, information technology oversight, payroll, purchasing, accounts payable, and so-forth. Currently, the DAC receives 7.1% of projected revenue. Each year, after review, if it is determined that specific budget items are to be reassigned between DWS and DAC or the colleges and DAC, the percentage of revenue will change accordingly, maintaining the same effective rate. *There are no proposed changes to this portion of the model.* 

4. Major Initiatives

This element represents a "set aside" of available revenues to be solicited by the individual colleges for initiating new programs or activities that they otherwise may be unable to fund. This element has not been previously funded and is not currently funded. However, the element will be retained in the Allocation Model for future consideration of funding. *There are no proposed changes to this portion of the model.* 

The previous four categories (Districtwide Services, Utilities, DAC, and Major Initiatives) reduce the revenue available for distribution to the colleges. The remaining revenue available for distribution is allocated in the subsequent categories.

#### C. College Allocations

The Allocation Model is designed to provide fair and equitable allocations to the colleges by acknowledging areas of differences or unique characteristics between the colleges, as well as similarities. The differences, unique characteristics, and similarities considered include, but are not limited to, areas such as classroom capacity, program mix, full time equivalent students (FTES), and ratio of full time to part time faculty. These elements are considered in one or more of the components of the Allocation Model to ensure an equitable allocation process. The three separate mechanisms below address different equity issues which have been recognized by the colleges.

#### 1. Class Schedule Delivery Allocation

This element of the Allocation Model addresses differences among the colleges related to instructional productivity, which is dictated in part by facility limitations, program mix, student preparedness, full-time/part-time faculty ratios, internal organization, and faculty longevity. Using a productivity factor of 525 and actual FTES (resident, non-resident, credit, special admit credit, incarcerated credit, non-credit, and enhanced noncredit) produced by each college for the period of July 1 through June 30 of the prior year, a Full Time Equivalent Faculty (FTEF) number for the budget year is calculated. The college receives an allocation for the actual cost (salary and benefits) for the full time classroom faculty currently employed. This allocation is adjusted to reflect non-teaching assignments, such as those on approved sabbaticals and load bank leaves, department chair, American Federation of Teachers (AFT), and Academic Senate release time, and planned additional full-time faculty for the budget year. The balance of the allocation is then funded at the average hourly parttime salary and benefit rates for teaching the equivalent of a full-time load. The total of full-time faculty salary and benefit costs and the hourly FTEF is the total Class Schedule Delivery Allocation for each college. There are no proposed changes to this portion of the model.

The Class Schedule Delivery Allocation totaled approximately 55% of the revenue available for distribution in the 2020-21 Adoption Budget. The remaining revenue available for distribution is allocated in the following manner: Base Allocation 70%, Supplemental Allocation 20%, and Student Success Allocation 10%. These percentages are in alignment with the Student Centered Funding Formula (SCFF).

#### 2. Base Allocation

This element of the Allocation Model addresses the differences among the colleges relative to their respective enrollment size. Each college will receive a Basic allocation equal to the basic allocation provided as part of the SCFF. This allocation is based on each college's size based on total resident FTES. The remainder of the 70% Base Allocation will be allocated to each college based on their share of the District's total credit FTES for the previous fiscal year. For example, the allocation for the FY 21-22 budget will be based on the Annual 320 report for FY 20-21.

#### 3. Supplemental Allocation

This element of the Allocation Model addresses the Additional costs associated with serving disadvantaged students. Funding will be allocated based on each college's share of the District's total counts of Pell Grant recipients, AB540 students, and Promise Grant recipients. For allocation purposes, counts will be based on the most recently finalized counts submitted to the Chancellor's office. For example, the allocation for the FY 21-22 budget will be based on the counts from FY 19-20.

#### 4. Student Success Allocation

This element of the Allocation Model addresses the funding provided in the SCFF related to student success. Colleges will be provided funding based on their share of counts in the success metrics used in the SCFF. These counts will be weighted using the same weighting used by the SCFF. As in the SCFF, additional funding will be provided for success outcomes by Pell Grant recipients, and California Promise Grant Recipients. For allocation purposes, counts will be based on the most recently finalized counts submitted to the Chancellor's office. For example, the allocation for the FY 21-22 budget will be based on the counts from FY 19-20

D. Transition/Implementation Funding

Potential adjustments to the Allocation Model can result in a shift of resources between the colleges. The district recognizes the need to provide stability and may choose to phase-in the effects of these adjustments. The changes proposed for the 2021-22 budget will be phased in over 5 years. The first year will provide each college with the same funding that would have been received under the previous model. The changes will then be transitioned over the next four years by annually calculating each college's allocation under the previous and new allocation models. In the second year, 25% of the difference will be implemented, in the third year 50% of the difference will be implemented. The model will be fully implemented in the fifth year.

#### E. Carry-over

The Allocation Model recognizes the incentive in allowing budget locations to maintain their unexpended funds for future needs. In addition to the allocation derived through the mechanism of the model, the colleges and district office are allowed to carry-over any unexpended funds as of June 30 into the new budget year, up to a maximum of 2% of their respective prior year's budget allocation. Any allowable carryover is then added to each college's total allocation to produce the college's total expenditure budget.

In 2018-19, the revenue projections for the FY2019-20 Adoption Budget were based on the most up-to-date SCFF information available at the time. Due to the implementation of the SCFF, the first and second apportionment estimates from the State was greater than the Adoption Budget revenue for 2018-19. As a result, additional 2018-19 apportionment revenue was allocated in May 2019 and November 2019. Due to the timing of the allocation of these additional apportionment funds, cost centers were able to carryover funds into FY 2020-21 not to exceed the amount of the late allocation that is separate from the 2% maximum.

In 2019-20, a majority of DCAS membership recommended that cost centers be permitted to transfer to Fund 113 any unspent one-time apportionment funds from 2018-19's SCFF implementation separate from the 2% maximum. This action will allow cost centers to phase in any new programs, enhancements, and innovations over time.

#### III. Background

Effective in fiscal year 2003-04, the District set aside the then-existing budget allocation model, which had been used to distribute district resources for the prior six years.

The model was primarily revenue-driven while providing for college base allocations and other fixed costs which did not necessarily equate directly to FTES generation. As such, the model relied both on revenue (FTES) and expenditure elements (dual characteristics) to serve as the mechanisms to produce the colleges and district level budget allocations. The model was, however, primarily FTES driven, with no cap placed on the funding of growth at the colleges, although the district as a whole had a funding cap. As the colleges evolved over time, the shift of resources favored the college(s) growing most rapidly and disadvantaged the college(s) growing more slowly, and the movement happened in an uncontrolled fashion. As a result, the model had been adjusted several times during its six-year period, and was believed to no longer meet the needs of the district and its colleges.

In 2003-04 when the model was set aside, the District distributed resources using the fiscal year 2002-03 allocation as a base, increasing or decreasing it proportionately each subsequent year based on changes in additional available resources from that point forward. That process continued over the next four years. Although this method distributed funds, there was not an agreed-upon budget allocation model. Distribution of new resources did not consider how the colleges had evolved since 2003-04. Further, the allocation of funds did not reflect how funding from the state was received, the uniqueness of the colleges, nor the priorities of the District. In addition, the lack of an agreed-upon allocation model had been cited in the accreditation reports and would have been a major issue if not resolved.

During fiscal year 2006-07 the District Council on Administrative Services (DCAS) and the Cabinet worked simultaneously toward identifying the features of a model that would reflect the unique characteristics of each college, while recognizing how the District is funded by the state, and be perceived as more equitable than the then existing arrangement.

In an attempt to develop a model that would be accepted as fair and equitable, areas of differences or unique characteristics between the colleges, as well as similarities, were identified. A model that considers and reflects these differences would be consistent with the objective of equitability.

The differences, unique characteristics, and similarities identified included, but were not limited to, areas such as:

- Facility constraints/classroom capacity on each campus How many rooms hold 25, 35, 100, etc. students? How will capacity change over the new few years?
- Program Mix mix of general education and vocational programs Does each college have the same proportion of vocational/career tech to general education classes? Does the difference in program costs impact the college's decision on what programs to maintain or develop?
- Students' level of educational preparedness
   Does each college have the same proportion of students who are prepared to take college-level classes?
   Are needs for basic skills classes the same? (Some of the additional requirements/services of these students are to be met through special funding, such as categorical, not necessarily general fund unrestricted dollars distributed through this model)
- Does each college have the same proportion of senior faculty (salary schedule placement)?
- How do full-time / part-time ratios of faculty compare?
- Are the contractual obligations, such as reassigned time and leaves, disproportionately distributed?
- What are the similarities/differences in core services?
- How does the size of each student body compare? (FTES)

It was imperative that each of these elements were considered in one or more of the components of the budget allocation model to ensure an equitable allocation process.

The Allocation Model was adopted for use in the 2007-08 fiscal year.

Beginning in the 2018-19 fiscal year, the State implemented a new funding formula for California Community Colleges. The new Student Centered Funding Formula (SCFF) sought to align funding with the Vision for Success by adding supplemental funding for

low income students, and rewarding Districts for student's success. Based on this new formula the District Council on Administrative Services (DCAS) began discussing how to align the Allocation Model with the SCFF. The issue was reviewed throughout the 2018-19, 2019-20, and 2020-21 fiscal years. The resulting model keeps the previous allocation model's allocations for District-wide services, Utilities, the District Office, and Class Schedule Delivery untouched. The remaining funds are then allocated to each college using the metrics from the SCFF.

### IV. <u>Updates</u>

Since the adoption of the Districtwide Resource Budget Allocation Model for the 2007-08 fiscal year, and in accordance with the commitment to the Board to regularly review the model components to ensure a more sustainable model, the DCAS reviews the model annually.

In 2008-2009, DCAS recommended modifications to the Class Schedule Delivery Allocation and the FTES Allocation segments of the model. The Board of Trustees approved the recommended changes at its March 2009 Meeting.

In 2010-11, DCAS developed a plan to address the district's capital structural deficits and recommended that specific revenues (lottery, interest income and administration fee revenue) be removed over time from the general budget allocation model and allocated in a different method.

Through FY12, all general fund – unrestricted revenue was distributed through the model, including, but not limited to, state apportionment for FTES, local revenues such as lottery, non-resident tuition, interest income, and miscellaneous, unless agreed to be distributed through a separate allocation method. This aspect of the allocation model was changed with the adoption of the Infrastructure Funding Model, beginning in the 2012-13 fiscal year. At the end of the full transition of revenue to the Infrastructure Funding Model, only state apportionment, non-resident tuition, and items related to part-time comp and benefits were to remain in the Districtwide Resource Budget Allocation Model.

In 2014-2015 DCAS recommended the excess revenue related to FTES generation from international students be taken out of the Allocation Model and be placed in Fund 114. This incentivizes each campus to develop an international student program by allowing the excess revenue to be retained by the home campus. DCAS also recommended a productivity factor of 525 be used for each campus. This change caused a significant shift of \$500,000 from Ventura College to Moorpark College. To alleviate possible operational disruptions, the change in the productivity factor will be phased in over four years with all campuses being held harmless in the first year (FY 15-16). In the subsequent three years, Ventura College's allocation will be reduced by \$166,666 each year. Further, DCAS recommended the carryover percentage be changed from 1% to 2%. These changes were executed in the 2015-2016 adopted budget. The final reduction was made in the 2017-18 budget year.

In 2015-16, a review of the components of the Infrastructure Funding Model resulted in a change in the treatment of unrestricted lottery revenue. Beginning with the 2016-17 fiscal year, unrestricted lottery was removed from the Infrastructure Funding Model and included in the Districtwide Resource Budget Allocation Model for the distribution of General Fund unrestricted revenues. The percentage of revenues the District Administrative Center will receive will be adjusted accordingly to maintain the same effective rate prior to the change.

In 2015-16, the District did not fully achieve its FTES goal. However, State regulations provide the flexibility to shift qualifying class sections between fiscal years. The District utilized this option and shifted 685 FTES from 2016-17 to 2015-16. As a result of this transfer, the 2016-17 State reported FTES was 685 FTES less than the actual operational FTES. In years affected by the shift of FTES, revenue will be projected based on operational FTES or state reported FTES subject to the maximum of state funded base. For the 2017-18 budget, state apportionment was calculated assuming the 2017-18 base FTES was the same as the 2016-17 actual operational FTES, which excluded the impact of the shift of 685 FTES.

In the 2016-17 Adoption Budget, the districtwide support in the Budget Allocation Model provided funding for the District Administrative Center (DAC) at 6.98% of available revenue. Within this allocation, \$420,000 was budgeted for the annual lease payment for the Stanley Avenue office. In November 2016, the District closed escrow on a property in Camarillo at Daily Drive for the DAC relocation. With the exception of Vice Chancellor El Fattal, members of DCAS wanted a model where the budget savings that resulted from the elimination of a lease payment for the district office would flow to the colleges and DAC over time. It was agreed that the elimination of a lease payment for the district office HoAC harmless for FY18 and agreed, with the exception of Vice Chancellor El Fattal, to recommend the phase-in of an adjustment over four years. Due to a lack of unanimity, DCAS continued its discussions on the topic. For the FY18 Budget, the percentage allocation to the DAC remained at 6.98%.

In 2017-18, the District once again utilized its option to shift qualifying FTES between fiscal years. 590 FTES were shifted from 2018-19 into 2017-18. As a result, State reported FTES in 2017-18 was 590 more than its operational FTES. This shift not only increased District state apportionment revenue in 2017-18, but it also increased the District's 'hold-harmless' apportionment amount within the SCFF for FY 2018-19 through FY 2021-22. The effect of the shift in 2017-18 was \$3 million which fell to the ending fund balance. In 2018-19, the shift also increased the District's state apportionment revenue by \$3 million and has flowed through the allocation model with the 2018-19 Adoption Budget. Regarding the DAC percentage allocation for FY19, a recommendation from DCAS was taken to Board in March 2018 to reduce its share to 6.7%. The motion was not approved and the percentage allocation to the DAC remained at 6.98%. DCAS also recommended at that time to allow amounts in excess of the 2% allowed carryover be transferred to Fund 113 to help the colleges and the DAC with anticipated future expenditure increases.

These amounts are one-time budget savings from FY18 that will be available in FY19 and reflected in the Adoption Budget.

Revenue projections for the FY2018-19 Adoption Budget were based on the most up-todate SCFF information available at the time. Due to the implementation of the SCFF the first and second apportionment estimates from the State were greater than the Adoption Budget revenue for 2018-19. As a result, additional 2018-19 apportionment revenue was allocated in May 2019 and November 2019. Due to the timing of the May 2019 allocation of additional apportionment funds, cost centers were able to carryover funds into FY 2019-20, separate from the 2% maximum, an amount not to exceed the additional apportionment funds.

For the FY20 Budget, a position in Information Technology (IT) shifted from DWS to the DAC, thus, increasing the DAC percentage to 7.1%. Database Administrator services had been outsourced and budgeted in DWS. However, when these IT duties were insourced, the DAC Percentage increased for the amount of related salary and benefits of this position.

For the FY21 Budget, the Allocation Model will be updated to align the District's revenue allocations with the Student Centered Funding Formula. The new model will be phased in over 5 years, with FY21 being a hold harmless year for each college.

VENTURA COUNTY COMMUNITY COLLEGE DISTRICT 2021-2022 ADOPTION BUDGET

INFRASTRUCTURE FUNDING MODEL

### VENTURA COUNTY COMMUNITY COLLEGE DISTRICT

### INFRASTRUCTURE FUNDING MODEL

### Fiscal Year 2021-22

#### I. Introduction

The Infrastructure Funding Model (Infrastructure Model) represents the methodology for distribution of certain variable revenues such as interest income and miscellaneous revenue to address the infrastructure needs at the colleges. These needs include scheduled maintenance, furniture and equipment, library materials and databases, technology refresh, as well as other identifiable infrastructure needs. Although the Infrastructure Model may not fully address all identified funding needs, its intent is to provide each college a dedicated, ongoing (although variable) source of funds to mitigate operating concerns and maintain quality facilities and equipment in order to provide excellent instructional programs.

The funds allocated to the Infrastructure Model are budgeted and accounted for in a separate Infrastructure Fund (113) from the Unrestricted General Fund (111). The colleges determine the budgeting of these funds within the allocation categories in accordance with their specific budget development processes and priorities. These budgets are presented to the Board for approval as part of the overall budget development process.

Annually, the Infrastructure Model is reviewed by the District Council of Administrative Services (DCAS) and Cabinet. Modifications and/or revisions to the Infrastructure Model may be recommended for Board consideration as deemed appropriate for the maintenance of the model's equity and integrity.

#### II. Model

The following describes the elements of the Infrastructure Model:

A. Revenue Categories

These revenue categories are included as a result of their relative instability to other funding sources and in recognition that a number of districts across the state do not include these resources as a part of their Unrestricted General Fund budget allocation model, but instead allocate them for specific purposes. These revenues will be recorded in the Unrestricted General Fund (Fund 111) with the equivalent amount being transferred out at year end. The Infrastructure Model includes the following specific revenue categories:

- Enrollment fee local revenue
- Interest income

- Any unbudgeted Unrestricted General Fund revenue other than apportionment
- Any net savings between budget and actual expenses from the District Wide Services and Utilities allocations
- B. Expenditure Categories

The Infrastructure Model includes specific expenditure categories that are necessary and fundamental to the maintenance of a quality educational institution. The expenditure categories are:

- Scheduled Maintenance and Capital Furniture (including classroom, faculty and administration)
- Library Materials and Databases
- Instructional and Non-instructional Equipment
- Technology Refresh and Replacement (hardware and software)
- Other to be restricted to one-time and not on-going expenditures, such as new program/process start-up costs, staff innovation, and program specific accreditation (e.g., nursing, dental hygiene, child development)

Funds carried forward from all expenditure categories remain in those categories to be expended in future years.

C. Allocation Basis and Rates

#### Basis for Allocation of Resources to Identified Categories

Category	Allocation Basis
Scheduled Maintenance and Capital	Assignable Square Footage
Furniture	
Library Materials and Databases	FTES
Instructional and Non-instructional	FTES
Equipment	
Technology Refresh and Replacement	Number of Computers
Other	Equal shares (1/3, 1/3, 1/3)

Category	Funding Rate
Scheduled Maintenance and Capital Furniture	\$1.60/square foot
Library Materials and Databases	\$10.00/FTES
Instructional and Non-instructional Equipment	\$30.00/FTES
Technology Refresh and Replacement	\$150.00/computer
Other	\$150,000/college

#### Funding Rate for Each Category

During years when the total dollar allocation to the Infrastructure Fund is insufficient to fully fund the Infrastructure Model, based on the then approved funding rates, the funding rates for all categories will be adjusted downward by a coefficient equal to the total of the funds available divided by the calculated full funding amount. For example, if the calculated full funding amount, based upon funding rates and allocation bases is \$4 million and the available funds based upon the allocation parameter is only \$3 million, then the funding rate for all categories will be computed at 75% (3 million/4 million) of their then approved rate.

The funding rates are determined based on recent experience/estimate of need, previous funding levels used by state, etc. As part of DCAS's annual review of the Infrastructure Model, the allocation bases and funding rates are assessed for appropriateness.

#### D. Carry-over

The Infrastructure Model recognizes that while infrastructure needs are ongoing, the frequency and amount of expenditures fluctuates. Therefore, colleges are allowed to carry over all unspent balances in these accounts from year to year in order to meet the fluctuating needs.

#### III. Background

The Infrastructure Model became effective with the adoption of the 2012-2013 fiscal year budget. Prior to that time, the District distributed nearly all its unrestricted general fund resources through a single funding allocation model. Those resources included state apportionment (enrollment fees, property taxes and state appropriation), non-resident tuition and fees, lottery revenue, interest income, and miscellaneous other fees and revenues. Noticeably, neither the State allocation model nor the then current district budget allocation model considered funding based on, or for, college infrastructure (e.g. size of the campus (number of buildings), age of the buildings, number and age of equipment, etc.).

For several years prior to the implementation of the Infrastructure Model, the State had reduced or eliminated funding for Instructional Equipment/Library Materials (IELM), Telecommunications and Technology Infrastructure Program (TTIP), and scheduled maintenance. Faced with its own funding constraints, the District had eliminated the majority of Unrestricted General Fund (Fund 111) support for library books and materials, instructional materials and equipment (IELM), scheduled maintenance, and technology equipment refresh and replacement and relied primarily on restricted (categorical) funding provided by the State for those purposes as well as college carryover of general funds unspent from the prior year. The District's past practice of including variable, and sometimes volatile, funds in its Unrestricted General Fund Budget Allocation Model had further destabilized funding. Additionally, in 2010, the colleges received Accreditation Recommendations from the ACCJC for giving insufficient attention to the "total cost of ownership" in their operating budgets as it related to their facilities and infrastructure.

Over approximately a two-year period, the District Council of Administrative Services (DCAS) diligently studied and discussed the matter extensively. The Infrastructure Model was developed in an effort to provide ongoing funding for each college's infrastructure needs, take direct corrective action to remedy the Accreditation Recommendations from the ACCJC on "total cost of ownership", and further stabilize the District's Unrestricted General Fund Budget Allocation Model, used primarily for instruction, some student services, and general operations. Great care was exercised in developing the Infrastructure Model to ensure the colleges' General Fund operating budgets would be buffered from any long-term impact and that the instructional and student service needs of the District would be preserved and adequately funded to meet the needs of the students.

To minimize the impact of reallocating resources from the Unrestricted General Fund Budget Allocation Model on the colleges' budgets, the implementation of the Infrastructure Model was phased in over several years. The transition process reallocated the funding as follows:

- Year 1 (FY2012-13)
  - Any net increase in General Fund Unrestricted lottery, interest, or enrollment fee local share revenue above budgeted for FY12
  - Any unbudgeted Unrestricted General Fund revenue (with the exception of growth and COLA) received in FY12, such as mandated cost reimbursement for collective bargaining
  - Any net savings between budget and actual expenses from District Wide Services and Utilities for FY12
- Year 2 (FY2013-14)
  - Those items included in Year 1 (2012-13) reallocation, and
  - Enrollment fee local revenue
  - Interest income over two years (50%)
- Year 3 (FY2014-15)
  - Those items included in Year 2 (2013-14) reallocation, and
  - Reallocate remaining 50% of interest income
  - Lottery income over five years (20%)
  - If growth funding is received, reallocate an additional 25% of lottery income balance
- Years 4-and beyond
  - Those items included in the prior year, and
  - Reallocate an additional 20% of lottery income each year until fully allocated
  - If growth funding is received, reallocate an additional 25% of lottery income balance

Additionally, only in the first two years of implementation, the colleges were not required to spend their allocation in accordance with the specific categories which generated the allocations, but were restricted to use these funds for only expenses associated with allocation categories in total. For example, in only the first two years, a college may have elected to fully expend its entire annual allocation for scheduled maintenance even though the allocation was derived from all infrastructure funding categories.

#### IV. Updates

In 2015-16, a review of the components of the Infrastructure Funding Model resulted in a change in the treatment of unrestricted lottery revenue. Beginning with the 2016-17 fiscal year, unrestricted lottery was removed from the Infrastructure Funding Model and included in the Districtwide Resource Budget Allocation Model for the distribution of General Fund unrestricted revenues.

In 2016-17, DCAS discussed how to incorporate the DAC within the Infrastructure Model now that the district had closed escrow on a property in Camarillo at Daily Drive for the DAC relocation. When these discussions occurred, it was too early to have accurate figures for the District expenses that would occur as a result of the DAC relocation alongside the extra revenue that would be produced from existing tenant leases. DCAS continues to review the model on an annual basis. No changes were recommended for the fiscal years 2017-18, 2018-19, 2019-20, 2020-21, and 2021-22.

## VENTURA COUNTY COMMUNITY COLLEGE DISTRICT 2021-2022 ADOPTION BUDGET

**BUDGET ASSUMPTIONS** 

Adopted by Board of Trustees March 11, 2021

## VENTURA COUNTY COMMUNITY COLLEGE DISTRICT

## BUDGET CRITERIA (GUIDING PRINCIPLES) AND ASSUMPTIONS

### FISCAL YEAR 2021-22 (FY22)

The District will develop a budget that allocates resources to achieve districtwide strategic goals and objectives. The Budget Criteria and Assumptions serve as a guide in developing the annual budget by setting forth the guiding principles by which the budget will be built and by providing assumptions which are the basis for the financial projections of revenue and expenditures. The budget is developed through a collaborative district-wide process that involves the Board of Trustees, the Chancellor and his Cabinet, the District Council on Administrative Services (DCAS), and the Chancellor's Consultation Council. The budget is further developed locally through collaboration at each college.

#### **Guiding Principles**

To help ensure that limited available resources are optimized, a budget will be developed that:

- Allocates resources to support goals and objectives established by the Board
- Provide resources to retain and attract highly qualified and effective employees
- Provides resources for continued improvement of student success and learning outcomes
- Provides resources and support for high quality, innovative instructional programs and services to students
- Balances enrollment goals and student access
- Increases and/or maintains sufficient levels of institutional effectiveness while becoming more efficient and cost effective
- Works to maintain technological currency and efficiency by updating and replacing equipment
- Provides resources to address the total cost of ownership and to maintain building and grounds
- Manages reserves and liabilities prudently and responsibly

#### Assumptions

Budget Assumptions are the basis for the financial projections of revenue and expenditures contained within the budget allocation process. While these Assumptions are based on the most current information available, it is recognized that ever-changing circumstances can alter the economic foundation upon which the Assumptions have been built.

The initial Budget Assumptions presented at this time are preliminary in nature and will be revised whenever significant and reliable information becomes available during the State budget development process. Events such as the "May Revise" of the Governor's Budget, state mid- and year-end adjustments (P2 apportionment) in June, and legislative actions to approve a State budget may impact these Assumptions and the development of the Ventura County Community College District's budget. The Governor's January budget proposal continues the Student Centered Funding Formula (SCFF). The actual funding rates for the Base Allocation, Supplemental Allocation, and Student Success Allocation will be based on the 2020-21 rates with an applied COLA. While no additional specific changes are proposed for 2021-22, the Administration notes that it supports the recommendations from the SCFF Oversight Committee to include a metric reflecting first-generation college students within the formula.

The budget development process, the Tentative Budget, and the Adoption Budget will be based on the assumptions described in this document as modified periodically.

#### Revenue

The COVID-19 Pandemic has had a significant impact on the State Budget. Governor Newsom's proposed budget assumes that the State is beginning to recover from the pandemic caused recession. The state is anticipating a \$15.5 billion windfall in one-time revenues, largely due to unanticipated increases in capital gains taxes. The windfall provides significant relief for the 2021-22 budget; however, the state continues to anticipate deficits in fiscal years beyond 2021-22. The Governor has also made clear that the current budget proposal is based on the best available estimates, but the ongoing pandemic makes these projections very difficult, and it is possible that there could be significant changes to the state budget between the January proposal and the May Revise.

To prevent reductions to the state's community colleges, the 2020-21 Enacted Budget included approximately \$1.5 billion in deferrals. However, due to the improved revenue forecast for 2021-22, the Governor's State Budget Proposal pays down more than \$1.1 billion of these deferrals, leaving less than \$327 million of deferrals for 2021-22.

For 2021-22, the Governor's State Budget proposed a Proposition 98 guarantee of \$88.1 billion, an increase of \$5.3 billion year over year. The estimated statutory COLA in 2021-22 is 1.5%. Unrestricted revenues will be budgeted in accordance with BP and AP 6200.

#### **Educational Services**

The Governor's State Budget proposals for other community college programs include an ongoing increase of \$111.1 million to fund the 1.5% COLA; \$30 million for increased access to online technology and mental health services; \$23.1 million to fund 0.5% enrollment growth, \$15 million for apprenticeship programs; \$10.6 million to invest in online education ecosystem and infrastructure; \$6.1 million to fund the 1.5% COLA for

certain categorical programs<sup>1</sup>; and \$8 million to cover increased costs for broadband access provided by Corporation for Education Network Initiatives in California (CENIC). The State Budget Proposal also includes one-time funding of \$250 million to provide emergency financial assistance grants to students; \$100 million to address food and housing insecurity; \$20 million to support retention and enrollment strategies; \$20 million to expand work-based learning; \$20 million to increase faculty professional development; \$15 million to develop and implement zero-textbook-cost degrees using open educational resources; \$2.5 million to provide instructional materials for dual enrollment students; and \$0.6 million to fund AB 1460 implementation and anti-racism initiatives.

The Governor's January proposal did not include any funding augmentations for other categorical programs not referenced above. Thus, the current categorical program budgets will be developed assuming the State's 95% funding guarantee will still be in place, consistent with prior year budget assumptions.

#### Enrollment Management

The Governor's January proposal gives a 0.5% growth factor to the system. The District does not anticipate any growth FTES. The Tentative Budget will be developed assuming that FTES will remain flat in FY22 as compared to FY21 operational FTES. The 70% Base Allocation portion of the SCFF is calculated on a three-year rolling average of District FTES. The Supplemental allocation of the SCFF is based on student demographics from the previous fiscal year, and the Student Success Allocation is based on a rolling three-year average of student outcomes.

#### Salary and Benefits

The cost of personnel makes up a significant portion of the District's budget and continues to increase for salary column/step movement and benefits. Care will be given to review and eliminate vacant positions and redundancies, and create consolidations where possible and necessary to reduce costs and increase efficiencies while recognizing the need for additional support of enrollment growth and student success efforts. For the Tentative Budget, salaries costs will include step and column increases, as well as increases in contributions for pension costs.

At the State level, the 2020 Budget Act redirected funds previously designated for a longterm buy down of pension liabilities, and instead used them to reduce local school employer pension contributions in 2020-21 and 2021-22. The 2021-22 Governor's Budget does not propose further buy downs but continues implementation of the 2021-22 employer contribution reduction. Employer contribution rates for the State Teachers' Retirement System (STRS) will decrease from 16.15% in 2020-21 to 15.92% in 2021-22. For the Public Employee Retirement System (PERS) rates are expected to rise from 20.7% to 23.0%. The District is providing a 2% increase in salary effective July 1, 2021. The impacts of this increase will be included in the salary budgets for FY 22. In September

<sup>&</sup>lt;sup>1</sup> Applies to CalWORKS, Campus Childcare, DSPS, EOPS, apprenticeships, and Mandated Costs Block Grant programs.

2020 the District transitioned from its legacy health care plan to CalPERS provided health benefits. Based on an analysis of the historical rate increases for the plans offered by CalPERS, the District is budgeting a 6% increase to health and welfare costs.

#### Federal Stimulus Funding

In response to the ongoing coronavirus pandemic, the Federal government has passed three stimulus bills that have provided substantial funding to community colleges to help offset the negative financial impacts of the pandemic. The performance period for these funds spans multiple fiscal years; for example, the American Rescue Plan, signed by President Biden on March 11, 2021, specifies that institutions can use funds through September 30, 2023. All federal stimulus funds are considered restricted funding and can be used to defray certain expenses associated with the pandemic and also provide for student support activities and emergency assistance to students, in alignment with the relevant legislation.

#### Proprietary (Enterprise) and Auxiliary Funds Food Service and Child Care Center

The enterprise/auxiliary funds account for business operations that are to be managed similar to private enterprise and will be budgeted assuming they are self-supporting.

#### Infrastructure Funding

The Infrastructure Funding Model represents the methodology for distribution of certain variable revenues such as interest income and miscellaneous revenue to address the infrastructure needs at the colleges. The colleges determine the budgeting of these funds within the allocation categories in accordance with their specific budget development processes and priorities.

#### Reserves

The District has designated its ending balance into five categories: State Required Minimum Reserve, Revenue Shortfall Contingency Reserve, Budget Carryover, Designated Reserves and Unallocated Ending Balance.

#### State Reguired Minimum Reserve

In accordance with the State Chancellor's Office Accounting Advisory FS 05-05: Monitoring and Assessment of Fiscal Condition, the State Chancellor's Office requires a minimum prudent unrestricted general fund balance of 5%. To ensure the District does not drop below this minimum requirement, the Board authorizes the segregation of this amount in a reserve designated for that purpose.

#### The Revenue Shortfall Contingency Reserve

This reserve is designated to cover any mid-year reductions (including, but not limited to, statewide property tax shortfall, enrollment fee shortfall, general statewide deficit, mid-

year "triggers", etc.), thus mitigating the need for mid-year reduction in operating budgets. This reserve was exhausted in FY12 due to trigger cuts, enrollment fee, property tax shortfalls, etc. The District faced these same potential mid-year revenue reductions in FY13 at which time the Board authorized \$6 million to be designated as a contingency for revenue shortfalls. The Tentative Budget will continue to include the Board-authorized \$5 million designated Revenue Shortfall Contingency for FY22.

#### Budget Carryover

The Budget Allocation Model allows colleges and the District Administrative Center to carryover 2% of their prior year Unrestricted General Fund Budget.

#### **Designated Reserve**

Recognizing the extensive infrastructure and one-time expenditure needs that cannot be met through existing budgets, the Board has approved designating a portion of the Unallocated Ending Balance to address these needs. For FY22, designated reserves include \$1 million designated for State Teachers Retirement System (STRS) and \$170,000 designed for Energy Efficiency.

#### Unallocated Ending Balance

Unallocated ending balance is the remaining balance that has not been designated for the other four reserves or uses. This balance is maintained in large part to augment cash to handle the significant cash flow requirements of the District. The Unallocated balance can be expended as approved by the Board.

#### Compliance

Budgeted expenditures will reflect compliance with all existing collective bargaining agreements, external requirements, laws, including the Education Code, Title 5 regulations, Full Time Faculty Obligation Numbers, FTES targets, the 50% law, and financial accounting standards (such as GASB, including post-retirement health benefit costs), etc.

#### Allocation

The allocation of resources will be in accordance with the updated Budget Allocation Model approved for recommendation to the Chancellor by DCAS in February 2021. The updated Budget Allocation Model aligns the District Allocation Model with the Student Centered Funding Formula. This model will be phased in over five years, with the first year holding the entities harmless by providing the allocations as calculated under the previous Allocation Model.

#### Timeline

The Tentative Budget will be presented to the Board for approval in June 2021 with the Adoption Budget planned for presentation to the Board for approval in September 2021.

## VENTURA COUNTY COMMUNITY COLLEGE DISTRICT 2021-2022 ADOPTION BUDGET

BUDGET NARRATIVE

## VENTURA COUNTY COMMUNITY COLLEGE DISTRICT ADOPTION BUDGET NARRATIVE Fiscal Year 2021-22 (FY 22)

#### **BUDGET PROCESS, TIMELINE AND PURPOSE**

Each year the Governor and Legislature work to craft the State of California's spending plan. The process of crafting the annual budget is an ongoing, year-round enterprise with several key activities during the January-to-June period, including the Governor's Proposed Budget (by January 10) and the Governor's May Revision (by May 14).

#### **Tentative Budget**

The District's 2021-22 Tentative Budget is developed using the information provided in the Governor's Proposed Budget, which represents the best information available at the time of Tentative budget development. The Tentative Budget must be adopted by the Board of Trustees on or before the first day of July as required by Title 5, California Code of Regulations (CCR), Section 58305. The Tentative Budget provides authorization for the District to incur expenses and issue checks in the new fiscal year until the Adoption Budget is approved.

#### **Adoption Budget**

The Adoption Budget is an update to the Tentative Budget and must be approved by the Board of Trustees no later than September 15. The Adoption Budget reflects the Governor's signed State Budget and the District's institutional Strategic Goals and priorities.

### STATE OF CALIFORNIA — BUDGET OVERVIEW

The ongoing COVID-19 Pandemic continued to inject significant uncertainty into the 2021-22 Budget Development process. Governor Newsom's January Budget Proposal assumed that the state economy was beginning to recover from the pandemic induced recession. After the release of the January Budget Proposal, the state's budget outlook greatly improved as all of the state's primary revenue sources have exceeded previous projections. This substantial financial recovery for the State is reflected in the enacted 2021-22 budget, which provides a positive outlook compared to the previously stated deficit of the prior year. The budget provides a total of \$3.5 billion in additional resources to California Community Colleges apportionments and categorical programs, including a full repayment of the \$1.5 billion of system funding deferrals in fiscal year 2020-21.

On July 12, 2021, Governor Newsom signed into law the 2021 Budget Act. The following are key attributes of the State budget:

Unrestricted General Funds (ongoing)

- 5.07% COLA for the Student Centered Funding Formula. The COLA is intended to cover the unfunded statutory COLA from 2020-21 of 2.31% plus the statutory COLA from 2021-22 of 1.7% along with an additional approximately 1% increase as was provided to K-12. This COLA represents an increase in revenues of \$8.3 million for VCCCD.
- \$100 million to increase full-time faculty hiring funds. (\$2.5 million for VCCCD)
- \$10 million to increase part-time faculty office hours.

Unrestricted General Funds (one-time)

- Elimination of all 2020-21 Budget Deferrals with the deferrals being paid back in July and August 2021.
- \$90 million to increase part-time faculty office hours.

Restricted Funds (ongoing)

• 1.7% COLA for certain categorical programs.<sup>1</sup>

<sup>1</sup> Applies to CalWORKS, Campus Childcare, DSPS, EOPS, apprenticeships, Adult Education, and Mandated Costs Block Grant programs.

- A 5% increase for the Student Equity and Achievement and Strong Workforce Programs.
- \$50 million to increase support for targeted student support services.<sup>2</sup>
- \$30 million to support integrated basic needs centers.
- \$30 million to support mental health services.

Restricted Funds (one-time)

- \$100 million system-wide to support retention and enrollment strategies (in addition to the \$20 million already been provided as part of the Early Action Plan).
- \$100 million to address students basic needs.
- \$115 million system-wide to expand zero-textbook cost pathways.
- \$50 million to support continued implementation of Guided Pathways.
- \$20 million to provide professional development.
- \$20 million to implement best practices for equal employment opportunities.
- \$10 million to fund LGBTQ+ student support centers.
- \$511 million to address deferred maintenance.

Individual district allocations for much of this new funding are still being determined by the CCCCO. Allocations that have been determined as final VCCCD allocations are included in the Adoption Budget. The allocations that have not yet been determined by the CCCCO will advance to the Board of Trustees as Budget Augmentations when they become established.

## VENTURA COUNTY COMMUNITY COLLEGE DISTRICT — BUDGET OVERVIEW

Due to continued uncertainty surrounding the State's ability to fully fund the SCFF, the District's Adoption Budget is based upon the State's hold-harmless provision which provides for the total apportionment received in 2017-18 plus COLAs from 2018-19, 2019-20, 2020-21, and 2021-22. In Fiscal Year 2020-21, there was no funded COLA even though the statutory COLA was 2.31%. COLA for Fiscal Year 2021-22 is 5.07% which results in a projected overall increase in available resources of \$10,750,460 in this 2021-22 Adoption Budget compared to fiscal year 2020-21 Adoption Budget.

<sup>&</sup>lt;sup>2</sup> Includes additional funding of \$5 million for Umoja, \$7 million for Puente, \$8 million for MESA, \$20 million for EOPS, and \$10 Million to support the Rising Scholars.

## **GROWTH FACTOR**

The January State Budget Proposal includes \$23.8 million to fund a 0.5% growth factor. The District has not included any growth funding in the Adoption Budget as its enrollment is not projected to increase.

## **EDUCATION PROTECTION ACT (EPA)**

Proposition 30, the Schools and Local Public Safety Protection Act of 2012, which was approved by the voters in November 2012, temporarily raised the sales and use tax by one-quarter cent and raised the income tax rate for high income earners (\$250,000 for individuals and \$500,000 for couples) to provide continuing funding for local school districts and community colleges. The one-quarter cent sales tax increase expired in December 2016 and the income-tax hikes on the high-income earners were set to expire at the end of 2018. In November 2016, voters approved Proposition 55, California Extension of the Proposition 30 Income Tax Increase Initiative. This constitutional amendment extended the Proposition 30 personal income tax increases on incomes over \$250,000 for an additional 12 years, through 2030, in order to fund education and healthcare. It is estimated that the District will receive approximately \$33.4 million in EPA funds for FY 2021-22 that will be used for faculty salaries and benefits. These funds are part of the general fund apportionment and represent no new or additional monies.

## **EXPENDITURES**

## Salary and Benefit Costs

The Adoption Budget includes expenditure increases of \$2 million for a 2% salary increase for all employees effective July 1, 2021 and also approximately \$1.5 million in ongoing annual costs for contractual step and longevity increases. The District received substantial health benefits cost savings as a result of the transition to the CalPERS health benefits program effective September 1, 2020. The 2021-22 Adoption Budget includes an expenditure reduction from the 2020-21 Adoption Budget of approximately \$10.2 million for all health and welfare benefits payments, including payments to participants in the District's Post-Employment Benefits plan.

## California State Teacher's Retirement System (STRS)

AB1469, enacted as a part of the 2014-15 budget, addressed the nearly \$74 billion unfunded liability for teachers' pensions. The plan shares the responsibility of the unfunded liability by the three partners that currently fund STRS—the state, education employers, and the employee members. Under the plan, all participate in increased contributions for the STRS solution. To address the "employer share" of \$42 billion, the community college districts employer rate was increased annually from 8.25% in 2013-14 to 18.4% by 2020-21 under current legislation. For FY 21 and FY 22, the State Budget provides local educational agencies with increased fiscal relief during the challenging economic environment caused by the pandemic by reducing the CalSTRS employer contribution rate from 18.4 percent to approximately 16.15 percent in 2020-21 and from 17.9 percent to 16.92 percent in 2021-22. Based on the adjusted rate of 16.92 percent, the District's 2021-22 STRS budget for all funds is approximately \$11.9 million.

## California Public Employees Retirement System (PERS)

The CalPERS Board of Administration determines employer contribution rates on an annual basis. According to the most recent CalPERS Schools Pool Accounting Valuation report, with a measurement date of June 30, 2020, the collective Net Pension Liability is more than \$30 billion. The rates are based on the annual valuation using a discount rate of 7%. The CalPERS Board of Administration approved lowering the CalPERS discount rate assumption, the long-term rate of return, from 7.5% to 7.0% for three years beginning in the June 30, 2017 annual valuation for school employers. This action increased employer contribution costs commencing in FY 2018-19. Lowering the discount rate means both the normal cost and the accrued liabilities will increase in the future. These increases will result in higher required employer contributions. Consistent with the existing board amortization and smoothing policy, the impact of each change in discount rate will be phased in over a five-year period. As a result, the full impact of the reduction in the discount rate will not be realized until FY 2024-25. The employer contribution rate is projected to rise from 18.1% in 2018-19 to 26.5% in 2025-26, with the legislated rate for 2020-21 at 22.67 percent. However, for FY 21 and FY 22, the State Budget provides local educational agencies with increased fiscal relief during the challenging economic environment caused by the pandemic by reducing the CalPERS Schools Pool employer contribution rate from 22.67 percent to approximately 20.7 percent for 2020-21 and from 24.9 percent to 22.91 percent in 2021-22. Based on the adjusted rate of 22.91 percent, the District's 2021-22 PERS budget for all funds is approximately \$10.5 million.

## **Retiree Health Liability**

An actuarial study for post-retirement benefits dated October 26, 2020 was performed with measurement and valuation dates of June 30, 2019, estimating the amount that should be accumulated under the requirements of GASB 74/75. The District's long-term Other Post-Employment Benefits (OPEB) liability as of June 30, 2019 was estimated at approximately \$185.9 million. In FY 2010-11 the District established an irrevocable trust fund to help address its long-term OPEB liability. The total market value of accumulated funds held in the Trust is approximately \$28.97 million, as of June 30, 2021.

In preparation of the FY 19 District budget, DCAS recommended not to make any further general fund contributions to the irrevocable trust. In FY 18 a subcommittee of DCAS was formed for the purpose of evaluating and recommending a long-term plan for the use of the district's irrevocable trust to address OPEB liabilities. According to the District's actuarial report for 2016, the projected retiree claims and expenses will continue to increase every year until FY 2031-32, at which time the annual expense is projected to reach \$18,026,362. The annual expense will then begin to decrease for 57 years, until FY 2088-89 when the liability is expected to be zero. Eventually, the retiree liability and irrevocable trust will reach equilibrium and the annual required contribution can be transferred to the trust. Rather than waiting until equilibrium is reached, the subcommittee recommended accessing the Trust funds in FY 2021-22 to pay for the increases in annual contributions. This would result in a level budgetary impact through FY 2040-41, at which time the annual required contribution would decrease.

Effective September 1, 2020, the District transitioned its health plans to CalPERS, resulting in significant reductions in annual costs. The District is currently completing the annual update to the actuarial study of the OPEB liability utilizing the updated CalPERS plan information. On April 22, 2021, DCAS reviewed its aforementioned recommendation to begin using the funds in the irrevocable trust in FY 2021-22 and determined it was best to

postpone the recommendation for at least one year. The use of the irrevocable trust will be re-evaluated upon the completion of the updated actuarial study.

## **INFRASTRUCTURE**

In March 2012, the Board approved the inaugural infrastructure funding plan and allocation model to provide foundational resources to address the District's partial structural deficit in capital funding for areas such as scheduled maintenance, technology and equipment refresh, instructional equipment, library materials and databases, furniture and equipment, etc. Maintaining these items is central to the core mission of the District and each college. Further, addressing the total cost of ownership (TCO) is a requirement of accreditation as well as a prudent business practice. Funding levels are determined by the Infrastructure Funding Formula.

A separate sub-fund (General Fund–Unrestricted Designated–Infrastructure) has been established to account for this redistribution of resources and the associated expenditures. As part of DCAS's annual review, the implementation strategies of the Infrastructure Funding Model are reviewed in a parallel process similar to that of the Districtwide Resource Budget Allocation Model review.

The Adoption Budget includes transferring \$2.3 million in budgeted revenue, the majority of which is interest income that fluctuates from year to year, from the General Fund-Unrestricted to the General Fund–Unrestricted Designated–Infrastructure. Expenditure of these funds will be budgeted in the year following the year in which the revenue is earned.

## **GENERAL FUND**

The General Fund is the principal operating fund of the District. All revenues and expenditures not required by statutory law to be accounted for in a different fund are budgeted and accounted for in the General Fund. Four sub-funds exist within the General Fund, which are briefly described as follows:

• **General Fund–Unrestricted (111):** Represents revenues and expenditures that support most educational programs and services throughout the district, including instruction, student services, maintenance and operations,

administration, and so forth.

- General Fund–Unrestricted Designated-Infrastructure (113): Represents revenues and transfers that have been specifically designated to be used for infrastructure needs including: Scheduled Maintenance and Capital Furniture (including classroom, faculty and administration); Library Materials and Databases; Instructional and Non-instructional Equipment; and Technology Refresh and Replacement (hardware and software). This sub-fund is reported to the State as a part of the General Fund–Unrestricted.
- General Fund Unrestricted–Designated (114): Represents revenues and expenditures associated with contract education, entrepreneurial programs, book store, civic center, and other activities initiated by the colleges and intended to be self-supporting. This sub-fund is reported to the State as a part of the General Fund–Unrestricted.
- General Fund–Restricted (12X): Represents revenues and expenditures supporting educational services whose resources are restricted by law, regulation, grant terms and conditions, categorical funding agencies, or other externally-imposed restrictions. This sub-fund is reported to the State as a part of the Total General Fund.

## **GENERAL FUND – UNRESTRICTED (111)**

The VCCCD budget process emphasizes the development of the General Fund-Unrestricted (111) budget, since this is the budget that most heavily impacts ongoing college and district operations.

## **Budget Allocation Model**

The Budget Allocation Model was adopted by the Board in May 2007, and modified in fiscal years 2009, 2012, 2015, 2016, 2018, 2019, 2020 and 2022. The model is reviewed annually by the District Council on Administrative Services (DCAS) in accordance with the commitment to regularly review the model components to ensure a more sustainable model

that incorporates variables that are meaningful, readily defined, easily measured, and consistently reported.

In the annual review of the Districtwide Resource Budget Allocation Model, if it is determined that specific budget items will be reassigned between Districtwide Services (DWS) and District Administrative Center (DAC) or the colleges and DAC, the percentage of revenue the DAC is allocated will change accordingly. Since the model was initially approved, several expenditure items have been reassigned to new locations (e.g., between DWS and DAC, colleges and DWS, colleges and DAC, etc.). This cost-shifting results in no impact (no increase or decrease) to budgets at the DAC or the colleges. There is no increase in the effective rate/percentage of revenue, as both budget and associated costs are shifted.

The Budget Allocation Model, following the review by DCAS, was utilized to allocate resources to the various operational units within the District. Each college and the DAC have a separate process by which they allocate the resources received through the Model. Throughout 2020-21 the District continued its examination of ways to modify the Allocation Model in response to the funding levels and priorities of the Student Centered Funding Formula (SCFF). As a result of this review, the District has updated the allocation model for 2021-22 to better align with SCFF. The updated allocation model leaves the Class Schedule Delivery portion of the previous allocation model intact with the remainder of funds allocated in a manner that very closely mirrors the SCFF. To mitigate any substantial shift in resources among colleges, the updated allocation model will be implemented over a five-year phase in period beginning in the 2021-22 fiscal year. The first year of the phase in holds each campus harmless as compared to the previous funding model.

## Budget Carryover

As part of the Budget Allocation Model, the colleges and DAC can carryover funds up to 2% of the prior year adopted budget. This reserve was fully distributed as a part of the budget development process and totals \$2,920,966 for the three colleges and \$241,757 for the DAC. Any budget savings above the 2% will remain in Fund 111.

## Reserves

The District's designated ending fund balance is comprised of the following categories: State Required 5% Minimum Reserve; Revenue Shortfall Contingency Reserve; State Teachers' Retirement System; Energy Efficiency; Unallocated Reserves; and Budget Carryover.

## State Required 5% Minimum

In accordance with the State Chancellor's Office Accounting Advisory FS 05-05: Monitoring and Assessment of Fiscal Condition, the State Chancellor's Office requires a minimum prudent unrestricted general fund balance of five percent. To ensure the District does not drop below this minimum requirement, the amount is segregated in a reserve designated for that purpose.

## Revenue Shortfall Contingency

The Revenue Shortfall Contingency Reserve is designated to cover any mid-year reductions (including, but not limited to, statewide property tax shortfall, enrollment fee shortfall, and general statewide deficit), thus negating the need for mid-year reductions in site operating budgets. For FY 2021-22, the contingency will remain at \$5 million.

## State Teachers' Retirement System (STRS)

This reserve is to address the rising annual costs of the STRS plan implemented by the State in 2014-15. At that time, the District set aside \$1 million to assist with the rising cost of STRS. For FY 2021-22, the contingency will remain at \$1 million

## Energy Efficiency

This reserve was established to address current and future challenges and opportunities for sustainability at all three colleges. For FY 2021-22, \$170,000 remains in this reserve after \$1,230,000 was authorized for use in FY 2019-20 and budgeted for the construction activities related to solar projects at each campus.

## Unallocated Reserves

Unallocated Reserves is the remaining ending balance that is undesignated for other uses. This balance is maintained to allow for gradual adjustment to any substantial reductions in revenue and, along with other cash reserves, to handle the significant cash flow requirements. The Unallocated Reserves can also be used to mitigate budget reductions beyond that provided for in the Revenue Shortfall Contingency Reserve. This reserve may be allocated to cover any other unanticipated one-time expenditures.

Maintaining Unallocated Reserves is important for fiscal solvency and strength during the years with uncertainty of funding for community colleges and the cyclical nature of the California economy.

## **GENERAL FUND-UNRESTRICTED DESIGNATED-INFRASTRUCTURE (113)**

This sub-fund was created to account for the Infrastructure Funding Model (approved by the Board in March 2012) to help address total cost of ownership (TCO) and the growing structural deficits in specific infrastructure categories. As specified in the funding plan, resources are to be re-allocated from the General Fund-Unrestricted. Funds may be accumulated from year to year to address the infrastructure needs. The Adoption Budget includes transferring \$2.3 million in budgeted revenue from the General Fund Unrestricted to the General Fund–Unrestricted Designated–Infrastructure. Expenditure of these funds will be budgeted in the year following the year in which the revenue is earned.

## **GENERAL FUND – RESTRICTED (12x)**

This fund supports categorical programs, grants, contracts, and other programs where budget resources are restricted by law, regulation, contract, grant agreement, or other externally restricted terms and conditions. Major programs accounted for in this fund include state categorical programs such as Student Equity & Achievement, Strong Workforce, Guided Pathways, EOPS (Extended Opportunity Programs and Services), DSPS (Disabled Students Programs and Services), CalWORKS (California Work Opportunities and Responsibility to Kids), Career Technical Education programs, as well as Perkins IV (VTEA/Vocational and Technical Education Act) federal grants, Restricted Lottery (Proposition 20) funds, Nursing Education grants, Title III and Title V (HSI, STEM) federal grants, and the HEERF COVID-19 relief federal grants.

The District's FY 2021-22 Adoption Budget for student services programs have been developed within the existing individual categorical programs based on the State's 95% funding guarantee. Final allocations for most student services programs are not finalized until after the Governor signs the state budget and the State Chancellor's Office determines District allocation of funds based on MIS data that is submitted during the first quarter of the fiscal year. As final allocations are communicated from the State Chancellor's Office, program budgets are adjusted and budget augmentations are brought forward for Governing Board action.

## PARKING SERVICES FUND (124)

This fund accounts for parking revenues (fees and fines) and expenditures associated with parking (including District police services), safety, and transportation. In response to the ongoing pandemic, the District will not charge students for parking in fall 2021 and spring 2022 and will utilize lost revenue and student outreach stimulus dollars for parking operations.

The Parking Services Fund will continue to require additional support to fund operations. The Adoption Budget includes financial support towards the cost of providing police services at all sites: \$1,237,000 of General Fund-Unrestricted (Districtwide Services); \$210,000 transfer from Parking Lots to Campus Police to cover operational deficit and the purchase of new vehicles; and, \$1,726,000 from Federal HEERF funding to cover lost revenues.

## HEALTH SERVICES FUND (13x)

This restricted fund accounts for the revenues and expenditures related to the operation of the colleges' Student Health Centers. Historically, the primary resources have been Student Health Fees and State Mandated Cost reimbursements. The District charges a flat fee of \$21 for the fall and spring semester and \$18 for the summer semester. These fees have been unchanged since the fall 2019 term.

Beginning in FY 2012-13, the approved State budget contained a new mandated block grant. This block grant distributed \$28 per funded FTES to cover all compliance costs incurred during the 2012-13 fiscal year, including those associated with Student Health Centers. The Student Health Centers receive their proportional share of the block grant. This mandated block grant will continue for FY 2021-22.

## CRM (Culinary and Restaurant Management) (322)

At Oxnard College, the CRM (Culinary and Restaurant Management) program provides food service during the lunch period as an outlet of the CRM instructional lab. Oxnard College made the transition between a full service cafeteria and a CRM outlet in January 2012.

## CHILD CARE CENTER FUND (33x)

This fund accounts for all revenues and expenditures related to the operation of Child Care Centers at Moorpark, Oxnard, and Ventura colleges. In addition to client enrollment fees, the Child Care Centers receive grant funding as a supplemental source of funding from the State of California. While maintaining competitive rates, the Child Care Centers have continued to be self-supporting.

## CAPITAL PROJECTS FUND (4xx)

In accordance with the CCCCO's Budget and Accounting Manual, this fund accounts for the financial resources used in the acquisition and/or construction of major capital outlay projects. Project elements may include site improvements including parking lots, walkways and monument signs, building renovations, new construction, scheduled maintenance projects, hazardous substance abatement projects, and fixed assets. Projects may be funded from a combination of state capital outlay funds, local funds, redevelopment agency funds, nonresident student capital outlay surcharges, and General Obligation (GO) bonds.

The FY 2021-22 Adoption Budget includes locally funded construction and capital outlay/improvement projects, scheduled maintenance projects, as well as funds for new technology/technology refresh and equipment replacement. Projects being funded from various infrastructure and special repair projects are also budgeted. The FY 2021-22 Adoption Budget also includes prior year carryover state funding for instructional equipment, library materials, and scheduled maintenance projects. Additionally, the State budget contains significant one-time funding for scheduled maintenance.

## PROPRIETARY (ENTERPRISE) FUNDS

The enterprise funds account for business operations that are financed and managed similarly to private enterprise and are to be self-supporting. These funds consist of a separate Bookstore Fund and Food Service Fund to account for the revenues, expenses, and profits and/or losses at each college.

## Bookstore (51x)

After years of declining sales, in January 2014, the Board took action to contract for fullservice bookstore services at all campuses through Barnes & Noble College Bookstores, Inc. This transition occurred April 1, 2014; the District will receive a percentage of net sales of which is accounted for in Fund 114.

## Food Service (52x)

The District contracts with vending operators to provide hot and cold food. The District will continue to consider alternative food service options, while maintaining at least breakeven financial operations.

## **INTERNAL SERVICES FUND (6xx)**

The **Self-Insurance Fund** provides funding for the level of risk retention held by the District. This fund is used to reimburse individuals or other entities for claims against the District up to our deductible levels (\$25,000/\$50,000) and for some settlement costs.

The **Retiree Settlement Health Payment Fund** is used to account for the costs arising from a settlement between the District and the class members defined in that settlement. The future liability exposure of this fund may be very significant depending how the District modifies health benefit plans over the next several decades.

The **Workload Balancing Fund** is used to account for non-contract assignment pay that has been deferred ("banked") to a subsequent semester or academic year by full-time faculty members. As faculty use their load "banked" hours, a transfer is made to the General Fund as a partial offset to the salary costs of the faculty member while on leave. The current liability in this account is approximately \$762,000.

The **Retiree Health Benefits Fund** is used to account for the payment of health benefit premium costs for retirees. The net difference between the expenditure for post-retirement benefits and the current retiree health premiums may be periodically remitted to the District's irrevocable trust. For more information on retiree health benefits, please refer to the Retiree Health Liability section found earlier in this narrative.

## STUDENT FINANCIAL AID FUND (74xx)

This fund accounts for the receipt and disbursement of government-funded student financial assistance programs. The major federally funded programs include Pell Grants, SEOG (Supplemental Educational Opportunity Grants), and Direct Loans. The major state-funded programs include EOPS (Educational Opportunity Programs and Services) grants, CARE (Cooperative Agencies Resources for Education) grants, Student Success Completion grants, AB 19 Promise grants, and Cal Grants.

## COMPLIANCE

The Adoption Budget reflects all compliance with external standards, including but not limited to GASB, other post-employment benefits (OPEB), the Education Code, Title 5 regulations, Full Time Faculty Obligation Number (FON), the 50% law, EPA funding, etc.

## RECOMMENDATION

The Adoption Budget was reviewed by District Council on Administrative Services (DCAS) on August 19, 2021, Chancellor's Consultation Council on September 3, 2021, and is recommended for approval by the Board of Trustees at the September 14, 2021 meeting.

# VENTURA COUNTY COMMUNITY COLLEGE DISTRICT 2021-2022 ADOPTION BUDGET

# GENERAL FUND – UNRESTRICTED (FUND 111)

## Fund 111 – Unrestricted General Fund

The unrestricted general fund is the primary operating fund of the district and is used to account for revenues and expenditures that are available for the general purposes of district operations and not otherwise required by law or regulation to be accounted for in another fund. The unrestricted general fund is utilized to support most educational programs and services throughout the district, including instruction, student services, maintenance and operations, administration, and so forth. In general, unrestricted funds can be used for any legal purpose deemed necessary. The unrestricted general fund includes board-designated monies that represent a commitment of unrestricted resources that are stipulated by the governing board to be used for a specified purpose. The district also designates unrestricted general fund resources for specified purposes in Funds 113 and 114, as described on subsequent pages.

# GENERAL FUND – UNRESTRICTED (FUND 113) DESIGNATED INFRASTRUCTURE

### Fund 113 – Unrestricted General Fund (Designated Infrastructure)

An infrastructure funding plan and allocation model was approved by the board in March, 2012 to help address ongoing structural deficits and the total cost of ownership (TCO) in infrastructure categories. As specified in the annually reviewed infrastructure funding plan, resources are reallocated annually from the unrestricted general fund and may accumulate in Fund 113 from year to year to address infrastructure needs. The intent of this designated fund is to provide foundational resources to address the district's deficits in areas such as scheduled maintenance and capital furniture (e.g., for classroom, faculty and administration), library materials and databases, instructional and non-instructional equipment, technology refresh and replacement (hardware and software), and so forth. Planning for and providing items in these categories are central to the core mission of the district and each college and enable the institutions to update essential products and services on a short-term, mid-range and long-term basis. Further, addressing the total cost of ownership is prudent business practice and a requirement of accreditation. The amount of annual funding is determined through the Infrastructure Funding Formula. Funds will be budgeted to expend in the year following the year in which the revenue is earned.

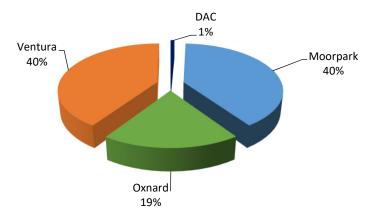

Fund 113 is a sub-fund of the unrestricted general fund and is used to account for revenues, transfers and expenditures that have been specifically designated for infrastructure needs, as stated above. This sub-fund is reported to the State as a component of the unrestricted general fund.

# GENERAL FUND – UNRESTRICTED (FUND 114) DESIGNATED

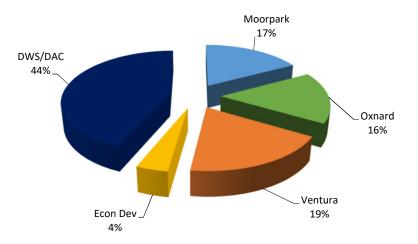

### Fund 114 – Unrestricted General Fund (Designated)

Fund 114 represents revenues and expenditures associated with contract education, entrepreneurial programs, book store, civic center, and other activities initiated by the colleges and intended to be self-supporting. General purpose revenues received from the State may not be used to subsidize Community Service (EC §78300) or Contract Education (EC §78021) programs such as those programs accounted for in this fund. Notably, such programs must recover the actual costs, including administrative costs, of providing the programs from public or private contracts, contributions, donations, or user fees. Sub-fund 114 is reported to the State as a part of the unrestricted general fund.

# GENERAL FUND – RESTRICTED (FUND 12x)

### Fund 12x – Restricted General Fund

The restricted general fund accounts for revenues and expenditures that are used to support educational programs and services whose resources are restricted by law, regulation, grant terms and conditions, categorical funding agencies, or other externally-imposed restrictions. Restricted monies are generally from an external source that requires the funds be used for specific purposes. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in grant agreements and are subject to audit by grantor agencies. Fund 12x is reported to the State as a component of the Total General Fund. Major programs accounted for in various sub-funds of Fund 12x include state categorical programs such as Student Equity & Achievement, SWP (Strong Workforce Program), EOPS (Extended Opportunity Programs and Services), DSPS (Disabled Students Programs and Services), CalWORKS (California Work Opportunities and Responsibility to Kids), Career Technical Education programs, as well as Perkins IV (VTEA/Vocational and Technical Education Act) federal grants, Restricted Lottery (Proposition 20) funds, Nursing Education grants, and Title III and Title V (HSI, STEM) federal grants.

The District's FY 2021-22 Adoption Budget for student services programs have been developed within the existing individual categorical programs based on current allocations (e.g. Advance) from the CCCCO. Final allocations for most student services programs are not finalized until after the Governor signs the state budget and, subsequently, the State Chancellor's Office allocates funds to the districts based on MIS data that is submitted during the first quarter of the fiscal year. As final allocations are communicated from the State Chancellor's Office, program budgets are adjusted and budget augmentations are brought forward for Board action.

Fund 12x is comprised of the following sub-funds:

- Sub-fund 121 State Categorical Programs
- Sub-fund 125 Other State Grants
- Sub-fund 126 Federal Contracts
- Sub-fund 127 Contracts
- Sub-fund 128x Restricted Lottery and Instructional Equipment and Library Materials (IELM)
- Sub-fund 129 Other Restricted Funds

# PARING SERVICES FUND (FUND 124)

### Fund 124 – Parking Services Fund

The Parking Services Fund has been established for the receipt and accounting of parking revenues (fees and fines) and expenditures associated with parking—including safety, transportation and District police services. Education Code Section 76360 authorizes community college districts to assess a parking fee through a daily parking fee or semester permits. Revenues collected are restricted and must be expended for the purchase, construction, operation, maintenance, enforcement, and improvement of the parking facilities. The College-wide Parking Lot Maintenance program supports repairs and renovations of parking areas districtwide.

Revenues generated from parking and related services are never enough to fully fund all necessary safety, transportation and police services; this situation has become more acute since the onset of COVID-19 and the resultant transition of conducting classes and services virtually. As the pandemic has caused substantial projected decreases in parking fee and fine revenue, the Adoption Budget includes substantial financial support towards the cost of providing police services at all sites from available stimulus funds.

# HEALTH SERVICES FUND (FUND 13X)

### Fund 13x – Health Services Fund

The overall goal of the Health Services Fund is to help students maintain optimal health so they may successfully achieve their educational goals. This restricted fund accounts for the revenues and expenditures related to the operation of the Student Health Centers at each college. Historically, the primary revenue resources have been attained through Student Health Fees and State Mandated Cost Reimbursements. The District charges a flat fee of \$21 for the fall and spring semester and \$18 for the summer semester. These fees have been unchanged since the fall 2019 term. Beginning in FY 2012-13, the approved State budget contained a new mandated block grant. This block grant distributed \$28 per funded FTES to cover all compliance costs incurred during the 2012-13 fiscal year, including those associated with Student Health Centers. The Student Health Centers receive their proportional share of the block grant. This mandated block grant will continue for FY 2020-21. In accordance with Education Code Section 76355, expenditures are restricted to payment for the cost of health supervision and services, including direct or indirect medical and hospitalization services or the operation of a student health center.

# SPECIAL REVENUE FUND (FUND 322) CULINARY ARTS & RESTAURANT MANAGEMENT (CRM)

Special Revenue Funds are used to account for the proceeds of specific revenue sources whose expenditures are legally restricted. The special revenues collected are used to pay for the cost of providing services that are not necessarily part of the educational program of the Colleges but enhance their ability to serve students.

### Fund 322 – Culinary Arts & Restaurant Management (CRM)

At Oxnard College, the CRM (Culinary and Restaurant Management) program provides food service during the lunch period as an outlet of the CRM instructional lab. Oxnard College made the transition between a full service cafeteria and a CRM outlet in January 2012.

# CHILD DEVELOPMENT FUND (FUND 33X)

Special Revenue Funds are used to account for the proceeds of specific revenue sources whose expenditures are legally restricted. The special revenues collected are used to pay for the cost of providing services that are not necessarily part of the educational program of the Colleges but enhance their ability to serve students.

### Fund 33x – Child Development

The Child Development Fund is the fund designated to account for all revenues and expenditures from the operation of child care and development services at Moorpark College, Oxnard College and Ventura College. In addition to fees for child development services, the Child Care Centers receive grant funding as a supplemental source of funding from the State of California. Prior to the 2020-21 fiscal year, the child development center at Oxnard College was converted to a lab school, which was accounted for in Fund 111. Since 2020-21 fiscal year, it has been accounted for in Fund 33x, similar to Moorpark and Ventura colleges.

# CAPITAL PROJECTS FUND (FUND 4XX)

### Fund 4xx – Capital Projects

Fund 4xx accounts for the financial resources used in the acquisition and/or construction of major capital outlay projects. Project elements may include site improvements including parking lots, walkways and monument signs, building renovations, new construction, scheduled maintenance projects, hazardous substance abatement projects, and fixed assets, and may be funded from a combination of state capital outlay funds, local funds, redevelopment agency funds, nonresident student capital outlay surcharges, and General Obligation (GO) bonds.

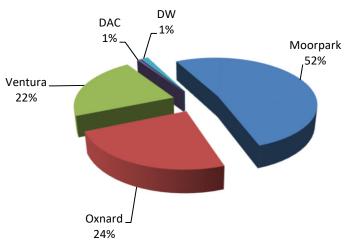

Fund 4xx is comprised of the following sub-funds whose revenues and expenditures are either restricted or designated, as indicated below:

Sub-fund 412	State Scheduled Maintenance (restricted)
Sub-fund 415	Redevelopment Agency (restricted)
Sub-fund 417	Non-resident Student Capital Outlay Surcharge (restricted)
Sub-fund 419	Locally Funded Projects (designated)
Sub-fund 44x/451	New Information Technology/Equipment/Refresh (designated)
Sub-fund 43xx	Measure S Bond Projects (restricted)

# PROPRIETARY FUND FOOD SERVICES FUND (FUND 52X)

## Fund 52x – Food Services

Fund 52x accounts for all revenues and expenditures related to the operation of contracted vendors that are utilized by the District to provide hot and cold food. The District will continue to consider alternative food service options, while maintaining at least breakeven financial status for this fund.

# PROPRIETARY FUND INTERNAL SERVICES FUND (FUND 6XX)

#### Fund 6xx – Internal Services

Fund 6xx is comprised of the following sub-funds whose revenues and expenditures are designated:

Sub-fund 611	Self-Insurance
Sub-fund 612	Retiree Health Payment Pool
Sub-fund 691	Workload Balancing
Sub-fund 693	Retiree Health Benefits

## Sub-Fund 611 – Self Insurance

The Self-Insurance Fund provides funding for the level of risk retention held by the District. This fund is used to reimburse individuals or other entities for claims against the District up to our deductible levels (\$25,000/\$50,000) and for some settlement costs.

## Sub-Fund 612 – Retiree Health Payment Pool

The Retiree Health Payment Fund is used to account for costs arising from a settlement between the District and the class members defined in that settlement. The future liability exposure of this fund may vary.

## Sub-Fund 691 – Workload Balancing

The Workload Balancing Fund is used to account for non-contract assignment pay that has been deferred ("banked") to a subsequent semester or academic year by full-time faculty members. As faculty use their load "banked" hours, a transfer is made to the General Fund as a partial offset to the salary costs of the faculty member while on leave.

## Sub-Fund 693 – Retiree Health Benefits

The Retiree Health Benefits Fund is used to account for the payment of health benefit premium costs for retirees. The net difference between the expenditure for post-retirement benefits and the current retiree health premiums may be periodically remitted to the District's irrevocable trust. For more information on retiree health benefits, please refer to the Retiree Health Liability section found earlier in this narrative.

Total OPEB Liability is \$185.9 million as of the June 30, 2019 actuarial study measurement date. Balance of the Irrevocable trust is \$28.97 million as June 30, 2021.

# FINANCIAL AID PROJECTS FUND (FUND 74XX)

## Fund 74xx – Financial Aid

Fund 74xx is used to account for the receipt and disbursement of monies received from federal and state agencies in support of the Federal/State Financial Aid Programs. The major federally funded programs include Pell Grants, SEOG (Supplemental Educational Opportunity Grants), and Direct Loans. The major state-funded programs include EOPS (Educational Opportunity Programs and Services) grants, CARE (Cooperative Agencies Resources for Education) grants, Full Time Student Success Grants, and Cal Grants. Each College administers the program and serves their respective students. The District serves as a fiscal agent for the federal government and makes payments to the students on its behalf.
