URGENT NOTICE

Federal regulations require that a student be enrolled in an eligible program in order to receive financial aid for that program. Our records indicate that you listed **VETERINARY TECHNICIAN or VETERINARY ASSISTANT** as your program of study but have not yet been officially accepted into this program. The **VETERINARY TECHNICIAN and the VETERINARY ASSISTANT PROGRAM** require a student meet certain criteria as outlined in the college catalog in order to be accepted. Therefore, until you have been officially accepted into the Veterinary Technician Program or the Veterinary Assistant Program, you must select a different program of study.

At this time, a “Veterinary Program” document has been added to your financial aid requirements. This document will prevent any financial aid awards from being disbursed to you.

In order to clear this document hold, you must do the following:

1. If you do plan to pursue Veterinary Technician or Veterinary Assistant as your program of study, but have not been officially accepted into this program, you must select another program of study. **We recommend you meet with an academic counselor to select an appropriate program.** See Counseling contact numbers below.

or

2. If Veterinary Technician or Veterinary Assistant is no longer your program of study, please update your program accordingly. Please note, not all programs offered at Ventura College are eligible for federal and/or state financial aid. For a list of eligible programs please visit our website.

Instructions on how to update your program of study on the student portal (MyVCCCD):

- Log onto your student portal at my.vcccd.edu
- Once logged on click on the “My College” tab
