

Do you suspect MISCONDUCT?

When you observe or suspect misconduct at work, or have concerns about unethical or illegal activities, contact the employee hotline and report your concerns.

The Hotline is managed by The Network, an independent reporting service. You DO NOT have to give your name if you wish to remain anonymous.

Call the hotline number, or make an online report. Your call will be answered by a professional who specializes in responding to employee contacts to the hotline. The specialist will document your reported concerns and refer the information to the District office for follow-up.
