California Community College (CCC) Transfers to In-State Private (ISP) and Out-of-State (OOS) Baccalaureate Granting Institutions in 2009-2010

April 2012

California Community Colleges Chancellor's Office

www.cccco.edu

Preface

The following is a report of California community college transfers to in-state private (ISP) and out-of state (OOS) baccalaureate granting institutions in 2009-10. During the development of the framework for the Accountability Reporting for the Community Colleges (ARCC), college representatives emphasized the importance of supplemental college level reports for local policy analysis and decision making.

This report is derived from one of the system level indicators in ARCC pertaining to transfer. The purpose of this descriptive report is to provide reference information for districts and colleges to analyze the transfer pathways of their students.

Questions regarding the report or its contents can be directed to Alice van Ommeren in Research, Analysis and Accountability at the California Community Colleges Chancellor's Office, avanommeren@cccoco.edu or 916.327.5878.

California Community College (CCC) Transfers to In-State Private (ISP) and Out-of-State (OOS) Baccalaureate Granting Institutions in 2009-10

This report identifies transfers to In-State Private (ISP) and Out-of-State (OOS) baccalaureate granting institutions in 2009-10 tabulated by individual California community colleges. Transfers in the 2009-10 academic year were captured from a series of aggregated first-time freshman cohorts (1993-94 to 2008-09) that completed at least 12 units while in the community college system. A student records match with the National Student Clearinghouse (NSC) identifies the transfer baccalaureate granting institution.

Identifying Student Cohorts

Beginning with 1993-94 data, a series of first-time student cohorts was identified by academic year. First-time students are defined as individuals taking their initial credit course in the CCC system with no prior enrollments inside or outside the system. The students in these cohorts must have completed at least 12 units in the community college system. The community college identified in the report was where the student first completed a credit course. The 2009-10 transfers were identified by disaggregating the fifteen cohorts by academic year.

National Student Clearinghouse

The CCC Chancellor's Office (CCCCO) has an agreement with the National Student Clearinghouse to track transfer students. Through this agreement, the CCCCCO submits files to the NSC for matching to the national student database. The NSC returns a listing of transfers to public and private institutions.

Matching Considerations and Limitations

- Students transferring to institutions that are not NSC members are not matched.
- The NSC limits data matching services (Student Tracker) to colleges that are "core service" members. About 92% of all colleges and universities in the United States are members.
- Students not receiving financial aid may request that the NSC not release their information to other institutions. These students are not matched.
- The NSC is unable to provide an accurate match if the student record sent from the CCC Chancellor Office is missing or incorrect.
- A student might transfer to several baccalaureate granting institutions, but this report reflects the first institution attended.
- Analysis revealed that a data-reporting artifact may occur for the year an institution joins NSC. All of the matches from previous years (a cumulative count) would be reported by the NSC as transfers for that first year.

Despite these considerations and limitations, this attached report provides districts and colleges with a useful estimate of reported transfers to in-state private and out-of state baccalaureate granting institutions for 2009-10.

**California Community College (CCC) Transfers to In-State Private (ISP)
and Out-of State (OOS) Baccalaureate Granting Institutions in 2009-10**
